Notice of Allowability	Application No.	Applicant(s)	
	10/720,355	RENSE, MARK S.	
	Examiner	Art Unit	
	Mariceli Santiago	2879	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--
 All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☐ This communication is responsive to Amendment filed September 15, 2006.
2. ☒ The allowed claim(s) is/are 7, 10-16 and 18-27.
3. ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) ☐ All b) ☐ Some* c) ☐ None of the:
 1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.
THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

4. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
 5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
 - (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
 - 1) ☐ hereto or 2) ☐ to Paper No./Mail Date _____.
 - (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

DETAILED ACTION

Response to Amendment

The Amendment, filed on September 15, 2006, has been entered and acknowledged by the Examiner.

Cancellation of claims 1-6, 8, 9 and 17 has been entered.

Claims 7, 10-16 and 18-27 are pending in the instant application.

Allowable Subject Matter

Claims 7, 10-16 and 18-27 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 7, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 7, and specifically comprising the limitation of an eyelet protruding completely through the opening in the nose and receiving one of said leads, said eyelet includes a tubular portion and a flange, wherein the tubular portion comprises a wall having a substantially uniform thickness from the first end to the second end and having substantially homogenous strength characteristics throughout the length of the tubular portion.

Regarding claims 10-15, claims 10-15 are allowable for the reasons given in claim 7 because of their dependency status from claim 7.

Regarding claim 16, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 16, and specifically comprising the limitation of a shoulder disposed in said housing, said positioning member resting on said shoulder wherein said shoulder is adapted to vertically align said light source in said reflector housing, said shoulder extends upwardly from said nose such that said positioning member aligns said light source in said reflector housing with no greater force exerted by said positioning member on said shoulder than the weight of said positioning member and said light source.

Regarding claims 18 and 19, claims 18 and 19 are allowable for the reasons given in claim 16 because of their dependency status from claim 16.

Regarding claim 20, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 20, and specifically comprising the limitation of a pair of leads extending from said light source, at least one lead being received by said eyelet, said eyelet being mechanically fastened to the at least one lead without the at least one lead being in tension.

Regarding claims 21 and 22, claims 21 and 22 are allowable for the reasons given in claim 20 because of their dependency status from claim 20.

Regarding claim 23, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 23, and specifically comprising the limitation of an eyelet including a tubular portion having a first end, a second end and a flange at the first end, said eyelet tubular portion protruding completely through the opening in the nose whereby the flange seats on a surface of the nose internal to the reflector housing and a generally non-elastic positioning member disposed in the heel portion of said reflector housing and including an opening.

Regarding claims 24-26, claims 24-26 are allowable for the reasons given in claim 23 because of their dependency status from claim 23.

Regarding claim 27, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 27, and specifically comprising the limitation of an eyelet including a tubular portion having a first end, a second end and a flange at the first end, protrudes completely through the opening in the nose whereby the flange seats on a surface of the nose internal to the reflector housing and the tubular portion of the eyelet extending from the outer surface of the nose is deformed to fasten the eyelet to the outer

Art Unit: 2879

surface of the nose and a generally non-elastic positioning member including an opening is disposed in the heel portion of said reflector housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mariceli Santiago whose telephone number is (571) 272-2464. The examiner can normally be reached on Monday-Friday from 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nimesh Patel, can be reached on (571) 272-2457. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
